REPORT ON BROWNSVILLE.

Court of Inquiry Has Findings Ready for Submission.

The court of inquiry appointed by the Secretary of War a year ago to investigate the discharge of a battalion of the 25th Infantry, colored, for alleged complicity in the shooting up of Brownsville, Tex., in 1906, has practically completed its work and today signed a formal report, which will be made to the Secretary of War. The findings of the court will be sent to Secretary Dickinson within a day or so, but the transcript of the evidence taken and the details of the report will not be ready for a week or two days.

No intimation can be obtained at this time as to what the findings of the court are.

The court consists of Lieut. Gen. S. B. M. Young, Maj. Gen. J. P. Sanger, Brig. Gen. Theodore Schwan, Brig. Gen. Butler D. Price, Brig. Gen. John M. Wilson and Capt. Charles R. Howland, 21st Infantry, recorder.

Youth

—was never better pictured than it is in a striking double-page drawing by

James Montgomery Flagg

—which will be part of our next Sunday Magazine.

A youth gazes from the deck of a ferryboat as it approaches the towers and spires of the city of his dreams.

Beside him sits a man whom years and disillusionment have aged, and the contrast is shown with all the skill of one of the foremost illustrators of the time.

A safe way to make sure of getting this picture is to order

WARNED BY ALFONSO

Peru and Ecuador Should Be Good, Says Arbitrator.

ADVICE IS MATTER OF DUTY

Adjustment in Washington Desired by Ecuador.

HAS NAMED THREE ENVOYS

No Acquiescence in Plan Given by Peru—Peace Congress May Be Abandoned.

MADRID, April 6.—The Spanish cabinet today dispatched to the cabinets of Peru and Ecuador telegrams enjoining those governments to adopt a conciliatory attitude toward each other.

The Spanish government considers that it was its duty to tender this advice, as King Alfonso is the arbitrator of the boundary dispute which gave rise to the ill feeling and subsequent war talk among the people of both republics.

Ecuador Willing to Confer.

From inquiries at the State Department and elsewhere it is ascertained that the government of Ecuador has expressed a willingness to attempt adjustment of

PRESIDENTS OF HOSTILE COUNTRIES

GEN. ALOY ALFARO, President of Ecuador.

its differences with Peru by direct negotiation at Washington, but that there are no indications of like disposition on the part of Peru.

It was pointed out at the department that any such mode of procedure must necessarily be conditional upon agreement by Peru as well as by Ecuador. If Peru should desire to attempt to solve the situation in that manner it was explained that any good offices by the United States in such a situation would have naturally to be preceded by definite requests by both Peru and Ecuador.

The question of the possibility of such a way of improving the situation came up.

BRAVERY IS COMMENDED.

Rescue of Naval Cadets From Drowning Noted by Department.

A reflex of the exciting incident at Annapolis March 20 last, when the son of the justice president of Cuba and a fellow student from a preparatory college there, were plunged into the icy waters of the bay by the capsizing of a canoe, appears in letters of commendation issued by the Navy Department to the two men who saved the boys from drowning. One of these is Hospital Apprentice B. E. Kirwan and the other is Private Peter Foy of the Marine Corps. Kirwan is but a stripling, while the young Cuban weighed over two hundred pounds and is very strong.

Although dragged under the water, and severely bruised by the desperate struggles of the drowning boy, Kirwan succeeded in keeping his head above the surface until Corp. James Fallon of the Seventh succeeded in getting together a number of marines and launching a boat from the beach, with which they paddled out with pieces of board, in the absence of oars, and dragged the party into the boat.

LAST SPANISH TREATY CLAIM.

Commission to Decide One Case and Then Wind Up.

The Spanish treaty claims commission is considering an appeal for a rehearing of the Durio case against the United States, which was argued by Attorney Francis T. Tobin of Philadelphia yesterday.

The commission is not expected to give its decision in the case for several days. At the previous hearing the case was decided in favor of the United States.

The amount involved in the claim for loss of residences, libraries, furniture and paintings is \$1,700,000. The property is said to have been destroyed previous to the Spanish-American war, either by Spanish soldiers or by Cuban insurgents. When the commission has decided this case it will be the last of about five hundred and forty-two cases to come before that body since its existence about nine years ago. The commission is now preparing to wind up and submit its final report to the federal authorities within a few days, after which it is expected that the body will be dissolved.

up in exchanges between the Department of State and the Peruvian and Ecuadorian governments. Both indicated a desire to find some way out of their present difficulties.

Ecuador, it is understood, has already designated Clemente Ponce, a prominent citizen by name of Lopez and Mr. Carbo, the Ecuadorian minister here, to act in her behalf in case an agreement is reached with Peru to institute negotiations at Washington.

Peru in Bad Odor.

The situation of Peru is desperate. The American State Department looks upon that nation's entanglements with fear for the outcome.

Advices in the State Department are that Ecuador is not alone in her enmity toward Peru, but that Chile, Colombia and Bolivia are sharing it.

The disputes which have caused the trouble are over boundary lines. Dis-
